UNIVERSITÀ DI PAVIA

UNIVERSITY OF PAVIA – DEPARTMENT OF CIVIL ENGINEERING AND ARCHITECTURE

CALL FOR APPLICATION

A call for applications is published for students who are enrolled for the first time in the second year (academic year 2026/2027) of the following degree programs:

- MSc in “Ingegneria per l’ambiente e il territorio”
- MSc in Civil Engineering for Mitigation of Risks from Natural Hazards - HYRIS curriculum

Each degree program will select one winner to be awarded with the following scholarship:

a) A scholarship of €4,000.00 fully funded by the Department of Civil Engineering and Architecture, **Progetto Dipartimento di Eccellenza 2023-2027**.

Applicants will be evaluated and the scholarships will be granted according to the final ranking. The specified amount of the scholarships is gross but may be subjected to income taxation depending on the personal financial arrangements of the students.

Students who have already been awarded a scholarship during the first year of enrollment are excluded from this selection.

Applications to the scholarships have to be submitted within 30 days from the announcement date of this notice.

The final ranking will be decided by a committee on the basis of: 1) the applicant’s academic curriculum and their study and work experience, as declared by the candidate, and 2) via oral interview of the candidate. More specifically, the teaching committee will evaluate the following documents:

- Academic qualifications, passed exams and relevant grades
- Work and study experience

Students may score a maximum of 50 (fifty) points for the submitted documentation. An additional 5 points will be reserved to students of the MSc in “Ingegneria per l’ambiente e il territorio” enrolled in the REACH curriculum. Only students that score at least 36 (thirty six) points will be admitted to the oral interview. Interviews will be conducted in English and, at the candidate’s request and committee’s discretion, may be carried out remotely. Interviewing will take place starting on the **7th of January 2027**. Students may score a further maximum of 50 points with the interview. The final score will be the sum of the points scored from both stages of the evaluation, which then results in the final ranking. In case of students with the same final point score, the younger one will be given priority.

The ranking list will be published by **January 20th 2027** on the Degree programs’ websites (on the following webpages http://lmiat.unipv.eu/; https://civrisk.cdl.unipv.it/en). Results will not be communicated individually to applicants. Successful applicants, however, will be contacted for the subsequent steps of awarding the scholarship.

APPLICATION REQUIREMENTS

In order to apply to the scholarships, candidates must satisfy the following requirements:

- they are enrolled in the second year of the MSc in “Ingegneria per l’ambiente e il territorio” or the MSc in CIVRISK (HYRIS curriculum) for the first time for the a.y. 2026/2027;
- they have completed a minimum of 60 credits (ECTS equivalent) and have a GPA of at least 28/30.

HOW TO APPLY TO THE SCHOLARSHIPS

The application must be submitted using the following form**:** **https://forms.gle/hPxHfz5LX8GM3SJ78**. Through the form you are asked to upload the following documentation*:*

- "ATTACHMENT A - CALL FOR APPLICATION" completed and hand signed, which is available at the end of this call
- Self-certification of enrollment with the complete list of exams passed and associated SSD, number of ECTS and grades. You can download the self-certificate of enrollment directly from your student portal.
- Curriculum vitae (C.V.) containing all necessary information regarding the candidate (education, knowledge of languages and computer software, any work experience, other general information useful to outline the candidate's suitability). The candidate can freely choose the format to be used for C.V.
- Reference letters (optional, maximum 2)

The administrative office in any moment of the process may seek to verify the candidates' self-declaration, certificates complying with the D.P.R. n°445/2000 of the 28/12/2000. To this purpose, the candidate must state all the information necessary for the check.

SCHOLARSHIP AWARDING PROCESS

Scholarships will be awarded to candidates who have submitted their application following the process described above before the specified deadlines and who are placed in an eligible position in the final ranking list..

Scholarship holders will receive the scholarship in two instalments:

- The first installment will be issued immediately after the selection procedure, at the end of January 2027.
- The second installment will be issued at the end of May 2027 provided the scholarship holder has gained at least 84 CFU (credits) and has a GPA of at least 28/30.

SCHOLARSHIP DISCONTINUANCE
The lack of compliance with the stated requirements will result in the scholarship being cancelled, except in proven cases of illness or exceptional circumstances.

Informative note in accordance with art. 13, paragraph 1 of the D.Lgs. of 30/06/2003 no. 196 ("Personal data protection code") The information supplied by applicants will be processed by the University of Pavia and used for the university's institutional objectives, to provide specific services requested by users as well as to fulfil its legal obligations. The personal data are generally handled by data processing and telecommunications systems designed to memorise and manage the data. In some cases, a hard copy may be generated; this process is always undertaken to ensure the security of, and protect the privacy of, the interested party.
Conferring personal data is obligatory and failure to do so will result in exclusion from the procedure.
User personal data, in accordance with current laws in force, may be revealed to and processed by personnel involved specifically in their handling. Applicants are entitled to the rights stated in art. 7 of the code, mentioned above, regarding personal data, its modification, updating, integration, cancellation etc., as well as reserving the right to oppose any use of the data other than the institutional purposes stated above. These rights may be enforced against the Rector of the University of Pavia as the individual responsible for the handling of personal data.

The Head of Administrative Procedures, according to art. 4 of L. 7th August 1990, no. 241 modified by L. 15/2005, is Ms. Marta Molinari (Cat. D1 – Management Administration Area).

Pavia, November 2026
